

Guidelines for Preparing Materials for Panel Presentations

1. The materials for this panel presentation will be displayed at Hokuriku Bank branches. As the audience includes Hokuriku Bank customers—i.e., members of the general public—please ensure that the following three sections of your research are written in a clear and accessible manner:

- Background of the Research
- Research Outcomes
- Future Prospects

If technical terms are used, please include explanations for them.

2. The material should be created on a single A4-sized PowerPoint slide. The submitted slide will be enlarged to A2 size for display.

If you choose to use software other than PowerPoint, please ensure the layout is A4-sized and includes the above-mentioned three sections and the following formatting requirements. For the headings of the three sections, please copy and paste the designated shapes from the template specified in Appendix Form 3.

3. Font specifications:

- Title : MS PGothic, 22 pt, Bold
- Affiliation / Job Title : MS PGothic, 16 pt
- Name : MS PGothic, 28 pt
- Body Text : MS Mincho, 10-12 pt

Font color specifications:

- Title : Blue
- Affiliation / Job Title/Name : Black
- Body Text : Primarily black; use other colors as needed for subheadings or key terms within the three sections

4. There is no character limit for each of the three sections. You may adjust the layout as needed, but must adhere to the formatting rules (A4 size, font size, etc.).

5. To enhance clarity, please include diagrams wherever possible.

6. Materials may be prepared in English; however, since the target audience is the general public, a Japanese translation must also be submitted.

7. The placement and size of the Hokuriku Bank and Kanazawa University logos are fixed and must not be altered.
